

**Załącznik nr / Annex no 1**

**Fields of testing** (to be provided on the first page of the scope of accreditation)

- A. Acoustic and vibration tests
- B. Biological and biochemical tests
- C. Chemical tests
- D. Clinical, medical and veterinary tests
- E. Electric and electronic tests
- F. Electromagnetic compatibility (EMC) tests
- G. Tests concerning environmental engineering (environmental and climatic)
- H. Fire tests
- I. Forensic tests
- J. Mechanical tests, metallographic tests
- K. Microbiological tests
- L. Non-destructive tests
- M. Other tests
- N. Tests of physical properties
- O. Radiochemical tests and tests of radiation – including nuclear radiation
- P. Sampling, laboratories accredited for sampling
- Q. Sensory tests

**Items / Groups of items** (to be provided on the first page of the scope of accreditation)

- 1. Agricultural products
- 2. Asbestos – including removal of asbestos
- 3. Biological items and materials for testing
- 4. Chemical products
- 5. Building products, materials and items
- 6. Electrical products and equipment
- 7. Software
- 8. Construction products and materials
- 9. Air
- 10. Fuels
- 11. Furniture
- 12. Glass and ceramics
- 13. Machinery and devices
- 14. Medical equipment
- 15. Military equipment
- 16. Optical equipment
- 17. Other products
- 18. Paper, cardboard
- 19. Personal protection equipment
- 20. Pharmaceutical products
- 21. Plastic and rubber products
- 22. Food
- 23. **Textiles and leather**
- 24. **Tobacco products**
- 25. **Toys**
- 26. **Vehicles**
- 27. **Wood**
- 28. **Water**
- 29. **Drinking water**
- 30. **Sewage**
- 31. **Soil, ground, rocks**
- 32. **Sediments, waste**
- 33. **Working environment (harmful and nuisance factors)**
- 34. **General environment (physical factors)**

35. Facilities (environmental conditions)
36. Gases
37. Production plants
38. Equipment – including nuclear installations
39. Air protection equipment
40. Laminar chamber
41. Air filter
42. Cosmetics
43. Fertilizers
44. Plant growth substances
45. Paints and varnishes
46. Lubricants
47. Crude oil
48. Other petroleum products
49. Packaging materials
50. Sports and leisure equipment
51. Playgrounds and equipment
52. Explosives and ammunition
53. Telecommunication products and equipment
54. Electronic products and equipment
55. Animal feedstuffs
56. Plant protection products
57. Objects from food production area
58. Automatic monitoring systems (AMS)
